Nationality	:	South Africa

PERSONAL SUMMARY

I'm a Full Stack Developer with a vast array of knowledge in many different frontend and backend languages, responsive framework, database and best code practices. Also a motivated and ambitious trained IT Support Technician skilled with hardware and software and with a strong technical background who possesses self-discipline and the ability to work with the minimum of supervision. I'm analytical in investigating problems, tracing root causes and correcting routine or serious issues. Communicates easily with technical and non-technical personnel to deliver quality support. Looking to develop my skills in an organization or institution that offers both challenge as opportunity for personal initiative and career advancement.
